

This card is a part of a Software Protection scheme and is important. DO NOT LOSE as replacement cards will not be issued. This card is needed in conjunction with the program you have purchased, you need only to refer to it when you first run the program. Load game as normal. When the program has loaded you will be prompted with 'Enter code at location' a location will then be printed on the screen (these locations are printed on the reverse of this card in grid form). If asked for location L1 then you will see that this square contains 4 colours, Yellow Green Red Green, in that order, so for location L1 you would type 4212 then press Return and the game will then run.

If you make a mistake typing the numbers in, the computer will give you another location to type in. If you type the second one incorrectly the computer will reset and the program will have to be loaded in once again from the beginning.
